

ReumAstudio LIVE: AAMUN TUOREIMMAT ASIAANTUNTIJAUUTISET

ReumA-
studio

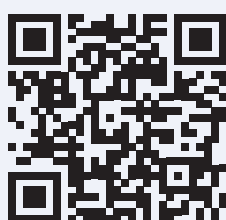

Torstaina 29.1.2026 klo 9.00-10.40, Sokos Hotel Presidentti, Auditorio

Tervetuloa kuulemaan viimeisintä tietoa RINVOQ-valmisteesta jättisoluarteriitin ja reumatautien hoidossa. ReumAstudiossa asiantuntijoina ovat Professori Witte Saksasta ja ylilääkäri Rautavaara Lahdesta. He jakavat viimeisintä tutkimustietoa RINVOQ-valmisteesta reumatautien hoidossa ja keskusteleivat tosielämän potilastapauksista.

Tilaisuus on tarkoitettu reumatologeille, reumatologiaan erikoistuville sekä reumatautien hoidosta kiinnostuneille lääkäreille. Webinaari on englanninkielinen ja professori Witte osallistuu etäyhteydellä.

Ohjelma

- | | |

Professor Torsten Witte

Medizinische Hochschule Hannover (Hannover Medical School), Germany

He is the Director of the Clinic for Rheumatology and Immunology at Hannover Medical School and the Director of the Centre for Rare Diseases. He is an internationally respected researcher and clinician, with key areas of focus in the mechanisms, treatment methods, and diagnostics of rheumatic diseases. Professor Witte has made significant contributions to the field by participating in expert committees, developing treatment guidelines, and leading clinical and laboratory research projects both in Germany and internationally. He has received several notable awards in teaching and research. His main research interests include rheumatoid arthritis, vasculitis, and rare immunological diseases.

Chair - Rheumatologist Joonas Rautavaara

Päijät-Häme Central Hospital, Head of Clinic

Joonas Rautavaara is a Rheumatologist and the Head of Department at Päijät-Häme Central Hospital. He specializes in musculoskeletal ultrasound and has completed advanced sonography courses through EULAR. He contributes to the field by teaching basic and intermediate courses for the Finnish Rheumatologists Association. His professional involvement extends to leading roles within the Finnish Medical Association, where he led several committees, helping shape international health initiatives.
